

Pipe Cleaner Crowns

You will need:

- Pipe cleaners

Make a circle for your base, we used one to make a small tiara, two for a crown that fits on your head.

Use the free ends at the bottom to secure it to the base of your crown.

Bend pipe cleaners in half and wrap around your finger to make a small loop at the top.

Repeat this and attach them all the way around your base.

What styles can you make?

Share your pictures on Facebook and show us what you made!
