

Sensory Painting

You will need:

- Sellotape
- Scissors
- Card or thick paper
- Ziplock bags
- Paint

Cut an oak leaf shape out of card or thick paper.

Carefully squeeze some paint into your ziplock bag, push all the air out of it before sealing.

Use sellotape to secure the bags to the table then place your oak leaf cut out on top. Place some more tape in the corners to keep it flat and in place.

See what colours and patterns you can make with your paint...we used our fingers, spoons, sponges and paintbrushes to see what we could create.
