

## Transcript – Tim Daniel

Hello, my name is Tim Daniel, and I am a trustee of the Worcestershire Heritage, Art & Museums fund. I became a trustee at the beginning of 2025, having retired from finance, banking, and wealth management. I was invited to be a trustee as I was a neighbour and great friend of Rolf and Shirley Olsen, and had great respect for them as a couple and their commitment to the arts. I have been living in Worcestershire virtually all my life and have a great love of art, and am in the process of collating a collection of my own. I am committed to promoting art in the city of Worcester, and I have great hopes that through this charity, the accessibility of artworks to the general public of all ages is secured. I'm excited about the works of art that the trust has already purchased, and I'm hopeful that there will be further opportunities to add to the collection in the near future.
